Once again the maelstrom has settled over Seattle and the winds threaten to tear apart all that isn't secure. Come down to the Re-Bar to get out of the storm and stay for the stories. Join us for burlesque tribute to the creativity of Neil Gaiman. He's written for comic books and authored many novels, movie scripts and teleplays. His stories have taken us from the lands of fantasy to the stars in science fiction tales. That is the just the beginning of what you may find waiting for you in Worlds' End.

"Worlds' End turns three and we're celebrating," said the show's producer, Miss Violet DeVille. "With some new takes on stories we've told before and we have new ones that are eagerly waiting for you."

Worlds' End Burlesque Revue is July 17<sup>th</sup> and 18<sup>th</sup> at the Re-Bar. Hosted by Lilith von Fraumench and starring Baby Cakes (Port Angeles), Ruby Darling, Whisper De Corvo, Miss Violet DeVille, Siouxsie Queen Gypsy (Port Angeles), Candy Apples, Alexa Perplexa, Mercury Divine, Miz Melancholy, Nickey Bourbon, and Luna Nightingale. ### **About Purple Devil Productions**

Established in 2011 by Miss Violet DeVille, Purple Devil Productions creates shows that match her particular tastes in entertainment and full frontal nerdity. In addition to the nerd burlesque shows, simply known as nerdlesque, like WORLDS' END, CAPTAIN ROYALE, and RULE 34 Purple Devil Productions also produces the wildly popular improvised burlesque show to live music WHEEL OF TEASE. Sometimes provocative, often nerdy, always entertaining.

### **About Violet DeVille**

Miss Violet DeVille is a transgender woman and a class act from a history that never was. The Timeless Trollup made her debut in 2010 and produced her first show in 2011. Since then she's performed throughout the Seattle area and even travels outside her lair to perform in exotic locales, like Boise and Piscataway, up and down the west coast and into Canada. When not producing and performing in

burlesque and cabaret shows, she mentors other performers and helps them develop their craft even further. She dabbles in absinthe cocktails, creates daguerreotypes and other photographies, and spends far too much time in her workshop making mad science sexy again.
